

## ABOUT US

Cronus Digital is an SBA 8(a) Certified next-generation technology company specialized in Artificial Intelligence and Cyber Security. Founded in 2018, we have a team composed of self-motivated, proactive, diligent, and resourceful individuals who are always happy to serve our clients. Our innovative solutions, powered by new and optimized technologies, create efficiencies in our customers' businesses. As a privately owned, profitable company incorporated in 2018, we demonstrate consistent yearly growth. We deliver results by converging on projects with fixed deadlines, aiming to achieve customer centricity and help companies attain their desired outcomes.

## CORE COMPETENCIES

- Artificial Intelligence (diverse use cases)
  - Custom Software Development
    - IT Consulting
  - Cybersecurity Solutions
    - Cloud Services
- Network Design & Implementation
  - Systems Integration
  - Web Development

## CORE PRODUCTS

- Human Resource Management System (HRMS)
  - Tracking and Tracing System
- Ports Connectivity and Shipping System
  - Learning Management System
  - Document Management System
- Dynamic Workflow Management Suite
  - BPOs AI use cases

## NAICS CODE(S)

**541512** – Computer Systems Design Services

**541511** – Custom Computer Programming Services

**541513** – Computer Facilities Management Services

**541519** – Other Computer Related Services, **541690** – Other Scientific and Technical Consulting Services – Cyber Security

**513210** – Software Publishers

**518210** – Computing Infrastructure Providers, Data Processing, Web Hosting, and Related Services

**519290** – Web Search Portals and All Other Information Services

**517410** – Satellite Telecommunications

**541330** – Engineering Services

Cronus Digital

# CORE COMPETENCIES & DIFFERENTIATORS

At **Cronus Digital LLC**, we deliver innovative, tailored IT solutions that help organizations enhance efficiency, improve security, and drive growth augmented by Artificial Intelligence. Here's what sets us apart:

## INDUSTRY EXPERTISE:

We have extensive experience across sectors including public sector Healthcare, Telecom, and Financial Services. Our deep understanding of industry-specific compliance and regulatory requirements ensures solutions that are both effective and aligned with client needs.

## CUSTOMIZED SOLUTIONS:

We don't offer one-size-fits-all products. Our solutions are tailored to each client's challenges and goals, ensuring scalability, sustainability, and long-term alignment with business objectives.

## AGILE DEVELOPMENT:

We follow Agile methodologies to deliver flexible, iterative solutions that adapt to real-time feedback. All development is compliant with OWASP and ISO 9001 standards to ensure security and quality.

## CYBERSECURITY FOCUS:

Cybersecurity is built into everything we do. We implement robust, proactive measures that meet global standards including ISO 27001 (Information Security Management), ISO 27701 (Privacy Information Management), and ISO 27702 (Governance, Risk, and Compliance for Privacy), ensuring your data and systems remain secure and compliant.

## CLIENT-CENTRIC APPROACH:

We value strong, long-term relationships. Our collaborative process emphasizes clear communication, integrated feedback, and dedicated support—keeping your goals front and center.

## SBA PROGRAM EXPERTISE:

As an **8(a) certified** company, we bring deep knowledge of federal procurement processes and are committed to delivering value-driven solutions for government agencies. We are unique in our approach towards developing and customizing products but what really sets us apart in the competition is that we deliver products along with the source code of the application.

# PAST PERFORMANCE

## XYBERMED LLC:

**Project:** Deployed a cutting-edge HRMS and an AI-based call center monitoring system to improve agent performance, streamline operations, and enhance customer retention.

## FASTLAB LLC:

**Project:** Implemented an advanced patient document management system, offering secure access across multiple enterprise applications, improving enterprise performance and cost savings by 2x augmented by AI.

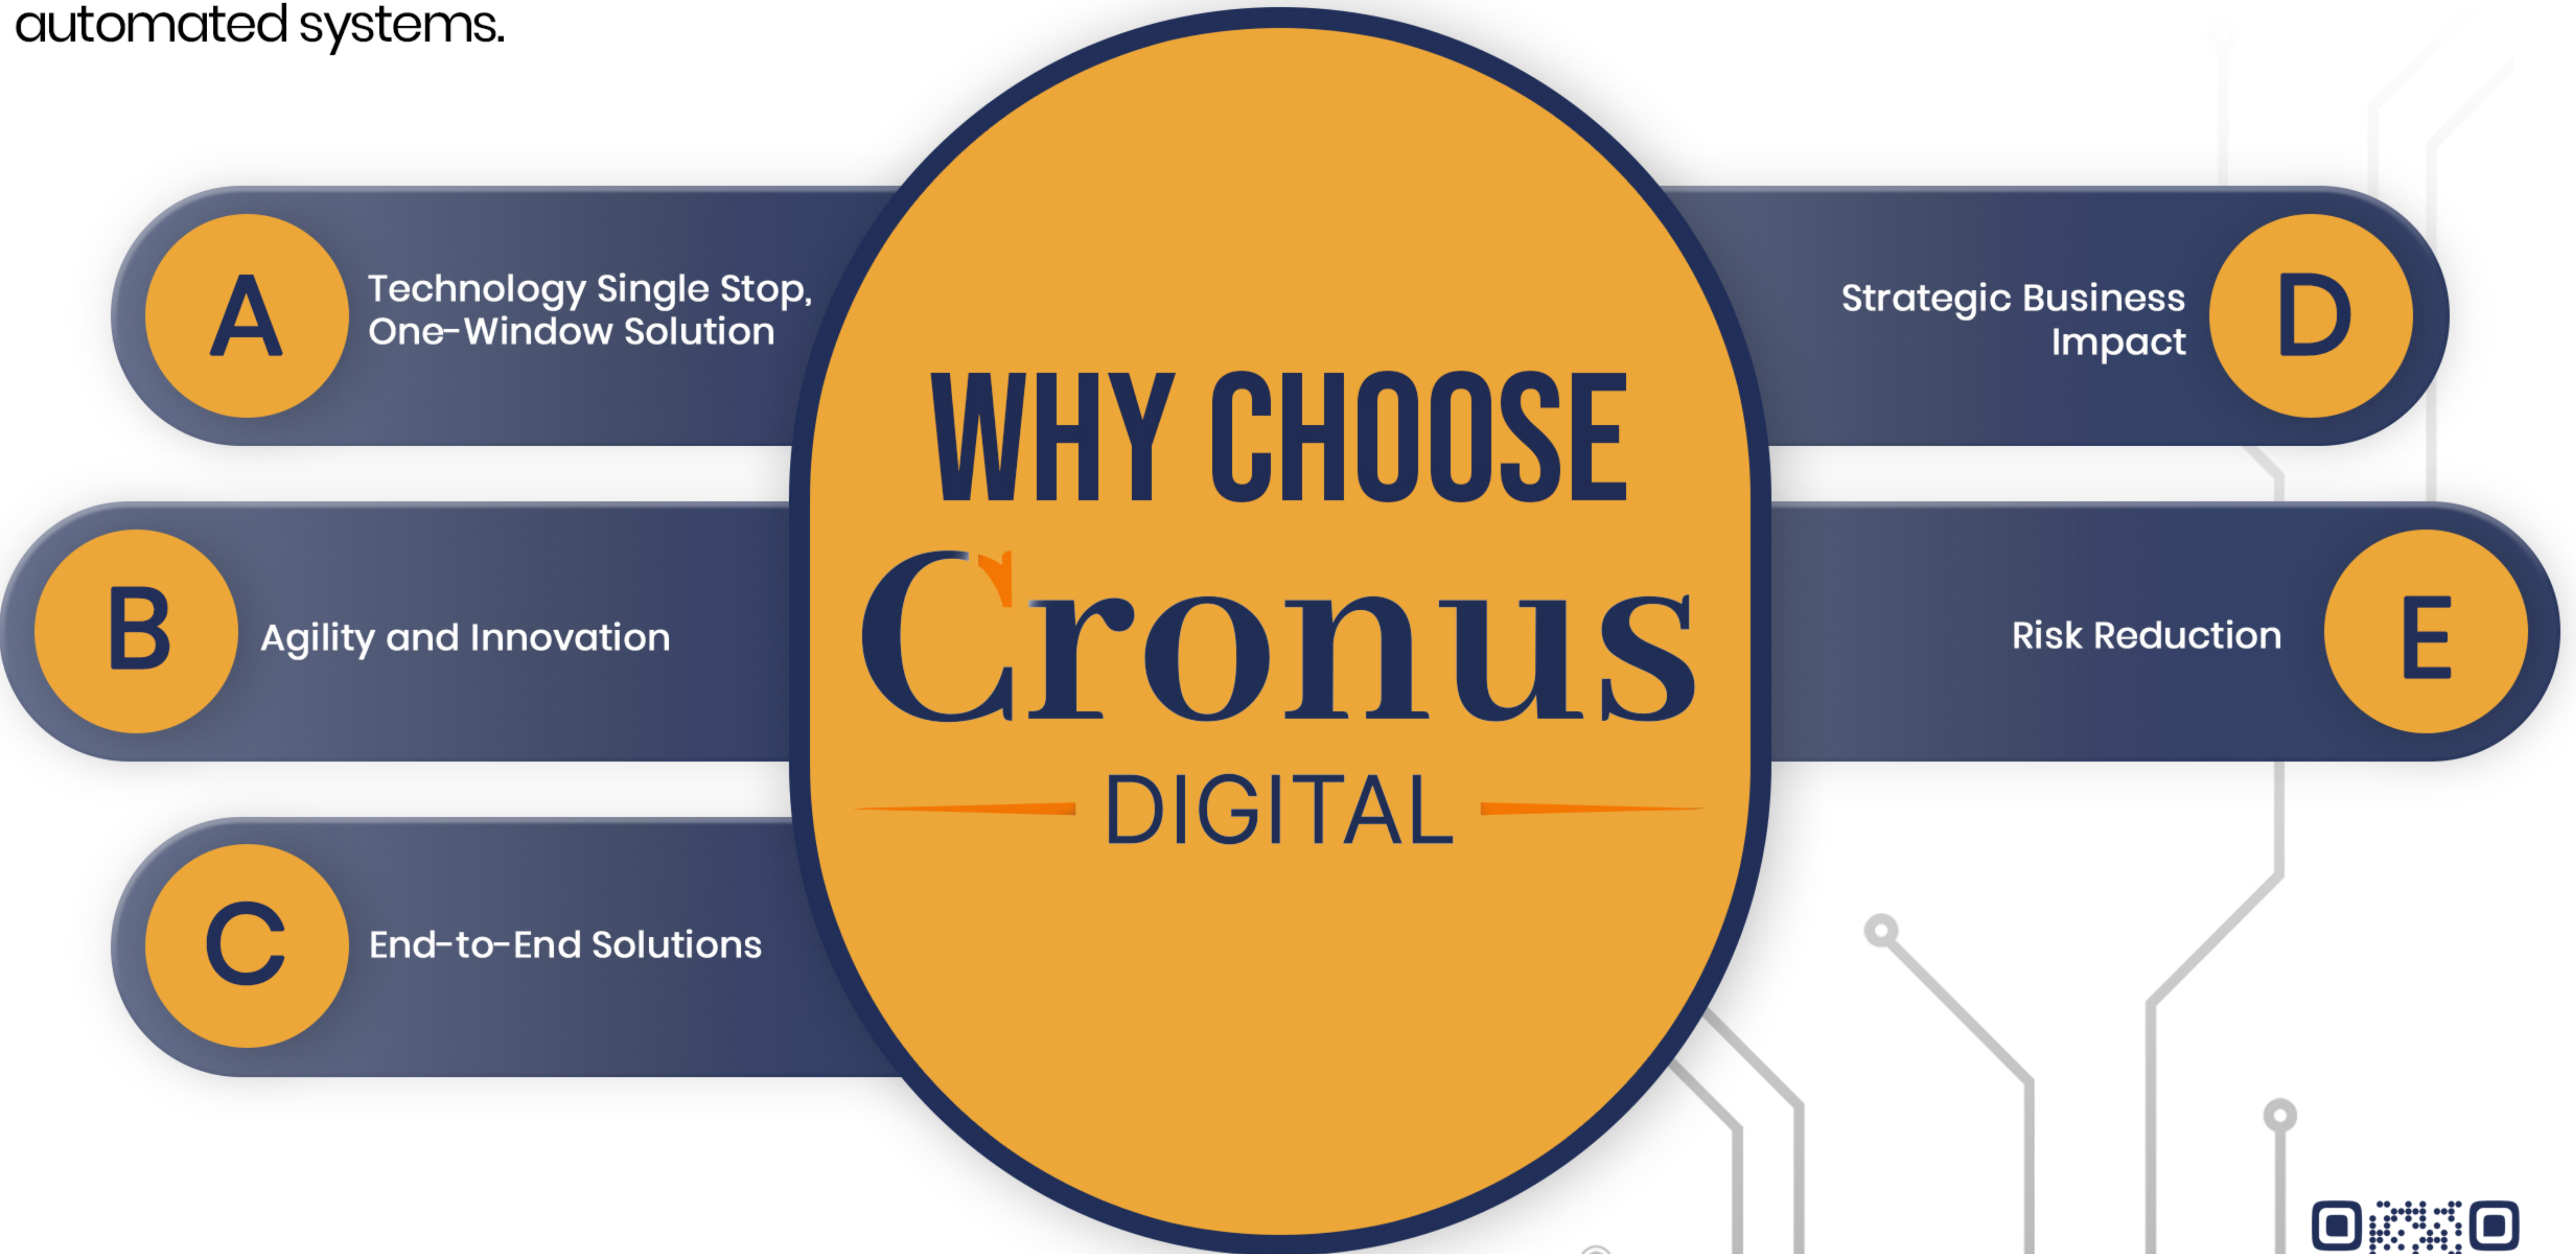

## AUGMENTECK LIMITED:

**Project:** Delivered consultancy services for the development of a comprehensive Inventory and Procurement Management System tailored to the needs of public sector agencies.

## DEPARTMENT OF JUSTICE:

**Project:** Delivered AI-driven project management and administrative support for legal offices, providing document management system, records control, data conversion and communication logging through automated systems.

## TECHNOLOGY SINGLE STOP, ONE-WINDOW SOLUTION:

We provide a comprehensive, all-in-one solution for all your technology needs. From custom development to cybersecurity, cloud services, and data analytics, we ensure that every aspect of your IT infrastructure is seamlessly integrated and managed under one roof.

## AGILITY AND INNOVATION:

With an agile, client-centric approach, we deploy solutions quickly, helping you stay ahead of the competition while maintaining the highest standards of quality and security.

## END-TO-END SOLUTIONS:

We offer a holistic approach, delivering everything from custom development and cybersecurity to cloud services and data analytics—ensuring all aspects of your IT infrastructure work seamlessly together.

## STRATEGIC BUSINESS IMPACT:

Our solutions are designed to enhance your bottom line, improve operational efficiency, and drive revenue growth—allowing you to focus on what matters most: scaling your operations.

## RISK REDUCTION:

Through robust cybersecurity and cloud solutions, we help safeguard your operations from potential threats and disruptions, ensuring continuous operations and protecting your data integrity augmented by AI watchdog.
